Did you miss the Burien Film Festival on April 1st? Have you ever seen the locally-produced, award-winning film “The Maury Island Incident”? Now is your chance!

Bring a blanket, snacks, friends and family! Wear your favorite man- or woman-in-black or alien costume! Can you spot your favorite businesses and Burien citizens in the films?

The inaugural Burien Film Festival (BFF) kicked off at the 3rd annual Burien UFO Festival on April 1, 2015, showcasing 10 original short films shot in the city and utilizing local businesses. The five-minute films were required to highlight Burien business, utilize a chase scene and include man- or woman-in-black and/or aliens. The new film festival – founded and organized by John White and Shelli Park – is intended to help promote Burien, its businesses and locales, as well as giving another outlet to the local creative community. The films were judged by a solid group of local and regional experts: Scott Schaefer (Director/Producer/Writer), Steve Edmiston (Writer/Producer/Director), Lisa B. Hammond (Production Designer), Matt Markovich (KOMO-TV), and Burien City Manager Kamuron Gurol.
